

Seeing Symmetry

Grade 3

5 skill lessons

Skill lessons

5 lessons on the mathematics the book carries. Printable workbook pages and teacher keys are not available for this book yet.

1. The Fold That Decides

Concept · Testing a figure for a line of symmetry by folding it in half

2. Matches in One Turn

Fluency · Counting how many matches a figure makes in one full turn

3. One Kind, or Both?

Reasoning · Deciding whether a figure has line symmetry, rotational symmetry or both, and naming the test that decided it

4. Which Way Does the Line Run?

Representation · Deciding whether a letter's line of symmetry runs up and down, across, or both ways

5. When the Halves Do Not Match

Application · Deciding that a figure is asymmetrical and naming the part that breaks the match
