

A Box of Shocks - Two Readings, One Evidence-Based Judgment

New York | Grade 5

TEACHES

5R1

CURRENT FRAMEWORK

Next Generation English Language Arts Learning Standards

STANDARD

Locate and refer to relevant details and evidence when explaining what a text says explicitly or implicitly and make logical inferences.

WHY THIS FROZEN LESSON EARNS TEACHES

Students evaluate two interpretations with evidence, give a qualified judgment, and respond to a competing interpretation.

INTEGRITY RULE

The regional standard is additive. The two lesson pages that follow are the frozen V5 lesson and have not been rewritten to obtain this standards match.

TumbleTA · Standards-First Short Lesson · Grade 5

A Box of Shocks Two Readings, One Evidence-Based Judgment

20 MINUTES

TARGET

Draw evidence from literature to support analysis and respond to another interpretation.

STUDENT PRODUCT

Unsafe-choices evidence + helpful-intention evidence + qualified judgment + response.

LESSON SEQUENCE

1. Fix the disputed actions Use Oliver entering the house and escaping through the window. Do not let the discussion drift to other adventures.
2. Parents on the danger Record Mom and Dad's criticism of the trespassing / dangerous escape as evidence for 'unsafe decisions.'
3. Parents on the intention Record Dad's acknowledgement that Oliver took the risk because he wanted to help Diggory as evidence for 'helpful intention.'
4. Qualified judgment Students write a judgment that contains both truths, then respond to a classmate who argues only one side.

ASSESSMENT · LOOK FOR

- Uses the house/window incident only.
- Records evidence from the parents for both interpretations.
- Produces a qualified judgment and an evidence-based response.

Standards-first rule: freeze the lesson after QA. Add a regional code only when the complete local expectation is actually satisfied.
