

Inventors and Engineering

Add the design evidence each book contributes.

How does an idea become something that works?

Book	Problem or constraint what needed to work or change	Design move idea, test, revision, result...
Pippo the Fool Tracey E. Fern		
Alexander Graham Bell Answers the Call Mary Ann Fraser		
Ada Byron Lovelace and the Thinking Machine Laurie Wallmark		
The Day-Glo Brothers Chris Barton		
Whoosh! Lonnie Johnson's Super-Soaking Stream of Inventions Chris Barton		
Erie Canal, The Jeanne Nagle		

What steps belong in your design cycle, and which book proves each step?
